### Estimating Material Handling Charges

- Charges will be based on the weight of your shipment. Each shipment received is considered separately. The shipment weight will be rounded to the next 100 lbs. Each 100 lbs. is considered one “cwt” (one hundred weight). All shipments are subject to reweigh. (200lbs minimum charged on all shipments weighing 51lbs - 200lbs)
- Select the category that best describes your shipment. There are three categories of freight:
  - **Grated**
  - **Special Handling:** Material that is skidded or in any type of shipping container that can be unloaded at the dock with no additional handling required.
  - **Uncrated:** Material delivered by a carrier in such a manner that it requires additional handling, such as ground unloading, stacked or constricted space unloading, designated piece unloading, shipment integrity, alternate delivery location, loads mixed with pad wrapped material, carpet and/or pad only shipments, no documentation and shipments that require additional time, equipment or labor to unload. Federal Express, UPS Ground, & DHL are included in this category due to their delivery procedures.
- Add overtime and/or double time charges for inbound if material is delivered to the booth during the overtime and/or double time period.
- Add overtime and/or double time charges for outbound if material is loaded onto the outbound carrier during the overtime and/or double time period.
- Add the early/late surcharge if the shipment is accepted at the show site before or after the deadline dates listed above.
